Elderly Helperly Survey

Below are all disclosures to make sure all participants are aware of all aspects of this survey and project.

Purpose: The purpose of this survey is to identify and explore the best features and trends to include in our application. This survey will allow us to use the feedback of multiple participants to guide us in our development of the best possible app for the elderly.

Anonymity: This survey will allow users to remain anonymous by just checking the box. It is important to understand that this information will not be released to anyone and only the figures will be used in our publication.

Time to complete survey: This survey should take around 3 to 5 minutes

Discontinue: It is not mandatory to complete this survey if you feel uncomfortable but complete answers are greatly appreciated and will have a positive impact on our project.

Confidentiality: All answers will remain confidential in any publication and the answers of all participants will not be evident in the research conducted.

Risk management: There is little to no risk involved as an established platform is being used for the survey and it will be confidential.

Consent: By participating in this survey you are consenting to participating in this study in a confidential study and understand that your answers will influence the collective result.

* Indicates required question

1. Would you like this survey to be anonymous *

    Mark only one oval.

    ( ) Yes   *Skip to question 5*

    ( ) No   *Skip to question 3*

2.   By selecting "Agree" you are agreeing to all disclosures above regarding the survey *

Mark only one oval.

○ Agree

○ Disagree
